NEW PATROL SHELLED PANHARD ROD RUBBER BUSHINGS

On lifted Patrols there was the occasion where the standard OE or aftermarket rubber bushings appeared to 'walk' out of the genuine or aftermarket panhards. In an effort to eliminate this occurrence, Roadsafe have designed a new high quality rubber bushing to suit this application. Featuring a solid shell design found in other OE applications providing full surface area contact with the panhard bushing apertures, the rubber is now bonded into position to absorb side loads at varied lift heights, aiding to minimise the 'walking' effect. Manufactured to OE dimension specs the new shelled bushings are compatible with genuine and OE spec aperture aftermarket panhards.

Part Number S0550R

Compatible with Nissan GQ/GU
SHELLED PANHARD ROD BUSH - DIFF END -
Replaces 55135-01J01 - LARGE HOLE
Barcode 9319478656932
RRP \$19.95

Part Number S0551R

Compatible with Nissan GQ/GU (non spherical)
SHELLED PANHARD ROD BUSH - CHASSIS END -
Replaces 55135-01J10 - SMALL HOLE
Barcode 9319478656949
RRP \$19.95
